

## **ENERGY AND CLIMATE CHANGE POLICY**

I.B.S. Refreshment and Plastics Industry SA acknowledges that climate change is a major planetary crisis. So, the company confirms its commitment to active participation in the global effort to address Climate Change.

Serving an energy consuming Industry of polymer processing, IBS is committed to:

- operate in compliance with applicable legislation and related regulations on energy and carbon dioxide emissions
- organize an effective recording system that will provide the necessary data to support the efforts for the reduction of its carbon footprint
- comply with necessary reporting obligations
- implement efficient programs to reduce energy consumption
- evaluate new equipment investment and working procedure changes on energy consumption and carbon footprint aspects
- participate in sector level initiatives to reduce carbon footprint of the entire value chain
- train all employees in its energy management practices and involve them in this effort according to their working role
- regularly review its energy performance to succeed continuous improvements
- participate in sectoral dialogue with the public and the public authorities for the development of best practices.

I.B.S Energy and Climate Change Policy is publicly available and reviewed in the light of technological developments and environmental audit results.

Responsibility for the implementation of this Policy lies with the most senior executives responsible for the company.
